**Description:** This two-day virtual test prep class is designed to help wastewater operators prepare for the ABC Certification Examination. There will be two daily sessions, a morning session and evening session to accommodate the 2nd shift operator. Five core topics will include detailed information related to various types of test questions. Each candidate will become familiar with basic knowledge, concepts and measurements, evaluations & adjustments, troubleshooting and problem-solving strategies.

Day 1 will consist of the core training topics for Laboratory Analysis and Treatment Process Monitoring, Evaluation & Adjustment.

Day 2 will consist of the core topics of Equipment Evaluation and Maintenance; Equipment Operation; Security, Safety, & Administration Procedures. Process control calculations using the 2017 ABC formula sheet will be discussed for each category.

Participants will have handouts for both days that must be printed out for use prior to the virtual training. Each participant is asked to bring the handouts, a calculator, pen or pencil, notebook, and highlighter.

**PRE-REGISTRATION IS REQUIRED**

**Instructor:** Betty Green (VRWA Staff)

**Webinar Time:** 8:00am—12:00pm (AM Session)  
4:00pm—8:00pm (PM Session)
