

## **Town of Glasgow Water/Wastewater Operator**

### **Job Summary**

The Town of Glasgow, VA is seeking a dedicated and skilled Water/Wastewater Operator to join our team. The ideal candidate will be responsible for the operation and maintenance of water/wastewater treatment facilities, ensuring compliance with regulations and standards. This role requires a strong mechanical aptitude and the ability to work with various equipment while maintaining a safe and efficient work environment. Assistance is provided from Public Works employees on repairs and maintenance. Minimum license requirement of Class 3 wastewater and Class 4 water license. Day shift.

### **Responsibilities**

- Operate and monitor water/wastewater treatment processes to ensure optimal performance.
- Collect and analyze data related to water/wastewater treatment operations, documenting findings accurately.
- Conduct regular inspections of equipment and systems, performing necessary repairs and maintenance.
- Operate heavy equipment as needed for the transportation of materials and waste.
- Perform heavy lifting tasks associated with equipment handling and maintenance.
- Maintain knowledge of distributed control systems to effectively monitor treatment processes.
- Adhere to safety protocols and environmental regulations at all times.

### **Skills**

- Minimum license requirement of Class 3 wastewater and Class 4 water licenses.
- Strong mechanical knowledge related to water/wastewater treatment operations.
- Proficiency in equipment repair, ensuring all machinery operates efficiently.
- Ability to perform data collection and analysis for operational reporting.
- Capability for heavy lifting as required by the role.
- Basic math skills for calculations related to chemical dosing, flow rates, and other operational metrics.

Join us in making a difference in our community by ensuring clean water management through effective water/wastewater treatment practices. Your expertise will play a vital role in maintaining environmental standards while contributing to public health.
